Q.Factorial

Getting started with ISO 9001 certification

our fast-track, low-cost solution for start-ups

Our consultants are hand-picked for their ability to untangle the complexity of ISO standards without tying you up in unnecessary bureaucracy. While you focus on scaling up your business, we'll focus on scaling down those ISO standards for you.

At QFactorial we really do empathise with your quandary. At first glance ISO 9001 seems to be a great way to suck all the fun out of starting up a new business. On the other hand, your customers are either going to demand you have it, or low-score your tender because you don't have it. We know how to get the balance right.

- Discovery
- Design
- Documentation
- Implementation
- Certification
- MAINTENANCE & IMPROVEMENT

The earlier you start, the easier it is. The longer you leave it, the more complicated and costly it becomes. By starting early, you can have a Quality Management System (QMS) that helps you grow and then grows with you. In other words, it both reflects and defines how things work in your business space.

Where Quality meets Science, Technology & Sustainability

ISO 9001 is for **any start-up** that wants to demonstrate a commitment to **quality** and create a strong foundation for **growth**

Q. Factorial

Our fast-track, low-cost, start-up deal is packed with essential tools, documents, events and that magic ingredient, human interaction. This will ensure your solution is bespoke, relevant and scalable. Here's what you get in our standard work packages:

WP01 Discovery & Design
Site visit – orientation & information gathering. Assessment of gaps & synergies. Action planning & allocation. Framework diagram. Draft manual.

WP02 Documentation
Site visit - process walk & live tracker training. Document creation, review & collaboration. Quality policy. Core process maps. Essential templates. Key documents. Final manual.

WP03 Implementation
Input to selection of certification body (CB). Remote training & mentoring. Site visit - internal audit. Corrective action support. Management review.

WP04 Certification
Stage 1 CB audit attendance. Stage 2 CB audit attendance. Corrective action support.

WP05 First Year Maintenance (optional)
Flexible, but typically includes quarterly internal audits, management review, CB surveillance audit attendance.

WP06 Improvement (optional)
Bespoke support designed to ensure your QMS evolves in response to change and growth. One-off projects or long-term relationship.

Call us for a free consultation and find out how ISO 9001 can benefit your business.

Roadmap
